## Intro to Python Boot Camp for STEM Undergrads & Grad Students

In our FREE Intro to Python Boot Camp we will learn about various data types, data structures, built-in functions, and methods. We will learn how to define functions, use conditional statements, create for-loops, and plot. **No prior coding experience needed, this is designed for beginners.** Breaks are built in through the session.

### Sat's Python 101

data types & structures

### Sun's Python 102

functions, loops, and visualizations

supporters

options open”  
(Undecided)

# Where are you from ?

Nor Cal

So Cal

Central Valley

Out of State

Outside the US

Why do  
Research?

# Why Do Research as a Community College Student?

- Can strengthen your transfer applications
- Demonstrate interest in the major
- Demonstrate understanding of the applications of your major
- Build connections at your dream university

# Types of Programs

Summer Enrichment Programs

Summer Research Experience for Undergraduates Programs  
REU's

Academic Year Research (community college faculty/  
Partnerships with local universities)

## We speak in Acronyms

**NSF**  
**REU**  
**NIH**  
**AAMC**  
**ABRCMS**  
**SACNAS**

# Applying to Research Programs

# Finding your Research Opportunities

## **REUFinder**

<https://reufinder.com/>

## **AAMC**

<https://www.aamc.org/>

## **Pathways to Science**

[pathwaystoscience.org/Undergrads.asp](http://pathwaystoscience.org/Undergrads.asp)

## **NSF REU Search**

<http://www.nsf.gov>

Tip: Only apply to programs you are eligible or qualified for!

## Terms you may encounter

- Rolling Admissions
- Rising Sophomores  
Rising Juniors  
Non-graduating Seniors
- PI (Principal Investigator)
- Students from institutions with limited research opportunities
- First Generation College Student

# What is the application process like?

- Transcripts
- 2-3 Essays
- Resume or CV
- Letters of Recommendation

# Letters of Recommendation

## YES!

STEM Faculty

Counselors

MESA Directors

STEM Center Directors

Supervisors/Managers

## NO!

Friends or Family

Members

Classmates

# *Letters of Recommendation*

Grades alone will not give you a strong letters of recommendation.

*Office Hours*

*Participation*

*Connecting with People*

## RESUME Vs CV

Usually One Page

Short & Sweet

Summarizes Experience

CV

More in-depth

More Research Focused

Can be more than one  
page

# What to include on your Resume or CV

Education

Courses Taken

Work Experience

Projects

Leadership

Volunteer Experience

May include research  
interests and hobbies

# Typical Essay Questions

- Please explain why you wish to conduct summer research *of the type offered by the program* and how this relates to your overall interests and goals.
- Describe a major challenge (personal, professional, and/or engineering) you have encountered in your life, how you overcame it, and what you learned as a result of the experience.

## Tips for Successful Applications

- If you have uncertainties, ask before you apply.
- Read FAQ's.
- Be sure that your schedule permits full participation in the program.
- Meet all deadlines, don't ask for extensions.
- Apply to more than one program.
- Verify that your application has been received.

Where Can I Do  
Research?

# Where will YOU do Research?

University

Hospital

National Lab

Combo of Both
